EYELOCK AND STANLEY SECURITY SOLUTIONS PARTNER
TO DELIVER LEADING IRIS BIOMETRIC ACCESS CONTROL SOLUTIONS

STANLEY Security will Market EyeLock's Suite of Access Control Solutions to Customers in North America

New York, New York, May 17, 2017 – EyeLock LLC, a leader of iris-based identity authentication solutions, today announced that it has entered into a partnership with STANLEY Security, one of the world's largest and most comprehensive security providers, to deliver EyeLock's full suite of hardware and software access control solutions to its broad customer base in North America.

EyeLock has achieved significant technological breakthroughs and solved integration challenges that have historically been a barrier to mass-market adoption of iris authentication technology. In addition, the Company's approach provides maximum flexibility by offering designs that have either on-board or host-based processing and illumination. Algorithm performance capabilities for speed and accuracy have been validated by Novetta, a leader in advanced analytics technology and independent biometric testing, as unmatched in the market. EyeLock's reference designs have working distances of up to 60 cm with a false accept rate of 1 in 1.5 million for single eye authentication and a false reject rate of less than 1%.

About EyeLock

EyeLock LLC, a majority owned subsidiary of Voxx International Corporation (NASDAQ: VOXX), is an acknowledged leader in advanced iris authentication for the Internet of Things (IoT), providing the highest level of security with EyeLock ID™ technology. Iris authentication is highly secure because no two irises are alike and the iris is the most accurate human identifier other than DNA. The company's significant IP portfolio, including more than 100 patents and patents pending, and proprietary technology enables the convenient and secure authentication of individuals across physical and logical environments. EyeLock's solutions have been integrated and embedded across consumer and enterprise products and platforms, eliminating the need for PINs and passwords. Corporations across the Fortune 500 recognize the level of security EyeLock provides due in part to its extremely low false acceptance rate, ease of use, and scalability. As a sponsor member of the FIDO (Fast IDentity Online) Alliance, a non-profit organization dedicated to creating a safer and more secure digital presence for consumers, EyeLock is dedicated to advancing digital privacy and next generation security.
