RCA

QuickStartGuide

TH11 series
www.rcaaudiovideo.com
Congratulations on purchasing your new RCA player.
Please read these instructions for quick tips on using the player.

Getting Started

1. Install the PC software from the CD* before connecting your player.

2. Remove the cap of the USB jack and connect your player to your computer.
The player

USB port of your computer

Tocom: 56429310 (EN/E)

---

3. Download audio files to your player using any of the two methods below (in Windows 2000 or Windows XP):

- **Yahoo! Music Jukebox™** (in Windows XP, installed from the CD): drag-and-drop audio files from your *My Music* library to the player.

- **Windows Explorer**: drag-and-drop audio files to the drive letter that is associated with the player.

- The player is also compatible with most PC music management softwares.
- For details on file transfer, refer to *Transferring Files to the Player* in the user manual on the CD.
4. To disconnect the player from the computer, double click the left mouse button on the icon from the System Tray, and select "Unplug or Eject hardware" for Windows 2000 or "Safely Remove Hardware" for Windows XP. Select the drive corresponding to your player and click STOP.

- The "Stop a Hardware player" screen will appear. Select the player to be stopped again for confirmation and click OK and disconnect your player from the computer.

5. To install the battery into the player, remove the cap of the USB jack of the player.
- Apply thumb pressure to slide the battery door in the direction of the arrow, then lift the battery door out and off the cabinet.
- Insert the supplied "AAA/LR03/UM4" battery following the polarities as displayed in the battery compartment and close the battery door. Replace the cap of the USB jack and enjoy music on the go.
Learn more about the player

- Read the user manual on the CD for more information on the player's features, safety and warranty information, and answers to Frequently Asked Questions (FAQ).
